

Clinical C

Professional Antioxidant Synergy

Orthoplex White Label Clinical C provides targeted, specialised nutrients to regenerate Vitamin C and provide longer lasting therapeutic benefits.

We have gone to great lengths to ensure an innovative clean-excipient tablet design, and to validate all ingredients as vegan and sourced from non-GMO origins. The formula also features the sustainably derived mixed tocotrienols and tocopherols, representing the complete eight isomer forms of Vitamin E.

Based on the most recent literature for enhancing the therapeutic benefits of ascorbates, we chose the specialised ingredients Glutathione, Mixed Tocotrienols and Tocopherols, Alpha lipoic acid and cofactors to provide clinical grade quality.

- ✓ Non-GMO ingredients and excipients
- ✓ Non-acidic, maltodextrin free Vitamin C
- ✓ Complete 8 isomers of natural Vitamin E
- ✓ Vegan friendly
- ✓ Soy and magnesium stearate free
- ✓ Suitable for sensitive individuals

Excipients

Microcrystalline cellulose, calcium hydrogen phosphate dihydrate, croscarmellose sodium, macrogol 400, EvNoIMax, colloidal anhydrous silica, ascorbyl palmitate, Hypromellose, Carnuba Wax.
